Collection overview

TRACK

3

Collection designed
by Norm Architects

Track is a modular concept with an iconic and sculptural approach. The floating rock-like formations create a comfortable landscape of seating islands that will become the centre of attention in any interior. A solid foam construction to maintain a sharp appearance with high comfort.

The sofa consist of two parts of solid seating and almost floating backrest creating a mesmerizing shadow drop on both sides. Furthermore it is possible to create a versatile collection with extended options for loose armrests and beautifully designed electrical components.

“From rectilinear to organic – from casual seating to engaged work situations - Track can be combined and repurposed endlessly.”
- Jonas Bjerre Poulsen

Endless possibilities

The modules of Track allow the creation of different compositions, giving more value to bring the home-feel to public spaces for functions as meeting, greeting, in-between spaces, waiting, collaboration and lounging.

Configurations can be created with several straight and corner modules. Each module can be connected. Add the round Track pouffe for a playful composition.

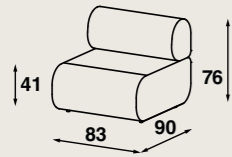

10

Electrical connector points in wooden round table

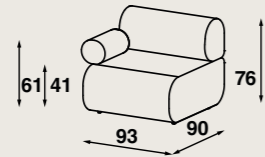

Electrics are integrated as standard in the small, round wooden tables, and can be positioned between any two Track modules of your choice. The edge of each small, round table features two recesses for two power sockets (white or black). An optional extra is to replace the power sockets with a USB-C charger. Surcharge for 2x 1 USB-C (instead of 2x 1 power socket).

PLANNING EXAMPLES

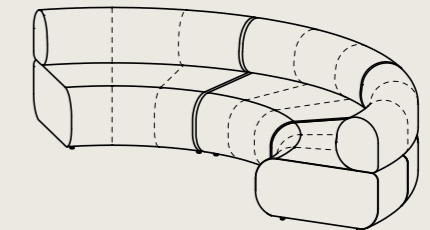

Track configuratie 131
modules: 2x 034, 3x 033

Track configuratie 110
modules: 021, 001, 031, 001, 003

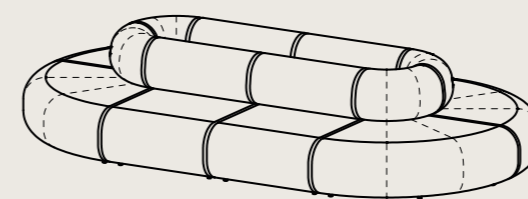

Track configuratie 120
modules: 021, 001, 031, 001, 003

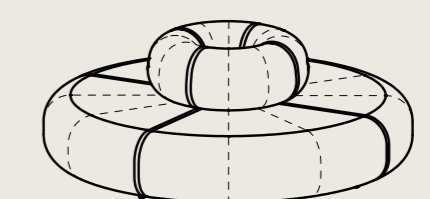

Track configuratie 130
modules: 3x 033

13

Track configuratie 141
modules: 4x 032, 4x 001

Track configuratie 140
modules: 4x 032

Track in 3D software tools

All of the Track example configurations as well as the single modules are available on pCon.catalog and 3D Warehouse. Along with the full collection, these platforms also provide numerous planning examples for activities within Hospitality, Social and Collaboration.

Upholstery

Track is available in many quality fabrics (upholstery category 2 and 3). Each individual Track module is fully upholstered in one single fabric colour.

When selecting a combination comprising two or more modules, you can combine several fabric colours in the same fabric.

NORM ARCHITECTS

18

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Much like human well-being, the essence of Norm Architects' work is found in balance —

between richness and restraint, between order and complexity. Each project—whether architecture, interiors, design or creative direction—is imbued with the same intrinsic quality: a simplicity that carries bigger ideas. Norm Architects' work is sharp and crisp and exudes, tacitly, our focus on quality, details and durability.

19

ART & COMFORT

That is what the world-famous brand Artifort stands for. For timeless design. Design that endures. Design that is authoritative. From Pierre Paulin and Geoffrey D. Harcourt RDI to Patrick Norguet and Luca Nichetto. Design for sitting, waiting, meeting, storing and discussing. It goes without saying that our delightful, exclusive furniture features in the collections of the Museum of Modern and the Centre Pompidou. Artifort means top quality design by top designers. For the home, board room or lobby. In the Artifort collection, anyone who attaches importance to form

and function will find a design that captures their heart. Forever.

Artifort is represented worldwide.
